Project Management & Collaboration

planstreet

EVERYTHING YOU NEED UNDER ONE HOOD

planstreet

Product Overview

Fast-growing companies and those working with on-site and remote teams have multiple needs. PlanStreet is designed to facilitate your projects with ease and efficiency. Here's what our platform does.

- Predictive scheduling analyzes your needs and makes suggestions. As a result, you can make realistic project plans.

- Resource tracking ensures you use the right staff for the right amount of time. No more wasted hours.

- Financial tracking ends overspending. Projects come in on time and under budget.

- Agile communication between teams allows everyone to be on the same page at all times. Hence, client communication is always clear and up-to-date.

PlanStreet Offers Superior Functionality Through Individual Modules

PROJECT PLANNING
Dynamic updates and detailed task breakdowns create a clear path to the success of every project. It's easy to spot risks early on and eliminate problems.

PROJECT PORTFOLIO
Numerous projects bring increased complexity. A centralized view allows you to quickly track your ROI with the most current information available.

MY STREET
Project managers and team members are always in the loop, thanks to real-time status updates and a consolidated view of every employee's activity.

STREET RESOURCES
Resource forecasting across your project/portfolio assists in using your team(s) with peak efficiency. Staffing is in balance, with the right people doing the best work.

STREET CENTER
Collaboration boards create a headquarters for communication. Teams interact daily with ease, and tasks and calendars are shared in one, streamlined center.

STREET FINANCIALS
Budget tracking forecasts your labor costs, drilling down to tasks and sub-tasks. Expenditures stay in line with the price tag, making delivery deadlines smooth.

When Projects Grow, PlanStreet Grows with Them

Why PlanStreet?

When it comes to projects and collaboration, PlanStreet is designed to get you to your destination in the swiftest, most intelligent way possible. Everything you need is under one hood.

ENDS WASTED TIME AND MONEY

Predictive scheduling automatically updates project plans. As a result, team members work only when needed, and budgets stay on track. You reach the summit with ease.

MAKES TEAM COLLABORATION AGILE

PlanStreet enables smooth collaboration with both on-site and remote teams. Daily scrums (updates) are linked to real-time work management. Nothing gets lost, forgotten, or left behind.

FIVE-STAR ADAPTABILITY

As your company grows, PlanStreet grows with it. As your projects and processes expand and evolve, PlanStreet does the same with easy configuration.

ADDRESSES EVERY ISSUE IN ONE SECURE PLATFORM

No more hassles using multiple products. One report regularly tells you everything you need to know, and acts as an early-detection system for risk.

We're positive PlanStreet will help you and your team(s) plan, execute, and track work at a much higher level. One of our experts will show you how with a live demo.
