

# **Food Pantry Management & Inventory System**

**Case  
Management  
Software**

# PlanStreet's food pantry software helps food banks, food pantries, and non-profits manage food assistance programs.

Despite the progress made in the world today and economies being as advanced as they have ever been, hunger and homelessness persist in our society. As a result, the need for efficient and stable food pantries continues. Such pantries have been rising in numbers since the financial crisis in 2008. However, a willingness to provide and availability only sometimes translates into effective meal delivery. There is a critical need for systems connecting food donors to receivers and records made and maintained about all cases.

# Enter PlanStreet!

It is a huge responsibility to ensure that food bank operations run smoothly and meet the demands of the communities they serve. PlanStreet's Pantry module offers several benefits to food banks and case workers responsible for meal deliveries. With PlanStreet, you can expect the following:

**Easy Intake:** Easily document new clients, donors, and staff through customizable intake forms.

**Multi program tracking:** PlanStreet Software allows your organization to track all programs, including pantry distributions, clothing programs, etc.

**Case Management:** The automated intake process, quick and efficient needs assessment, and easy outcome tracking make PlanStreet an intelligent choice for food banks and pantries.

**Paperless Process:** Rid your organization of burdensome paper documentation and step into a world of instant access, constant back-ups, and organization.

**Automated Compliance:** Check eligibility, obtain electronic signatures, and meet all other Emergency Food Assistance Program requirements with automation that saves time.

**Dashboards and Reporting:** With our user-friendly interface and dashboards tailored to your requirements, you can organize data, access cases, and create professional-looking reports that can easily display donations, inventory, and staffing.

**Food inventory Tracker:** Have real-time, up-to-date information about what food items are available by product name, bar codes, weight, quantity, and even description.

**Food Pantry Donation:** Track donor contributions to your pantry by donation volume or type.
